**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election without traverse of claims 1-14 in the reply filed on 5/16/06 is acknowledged. Thus, claims 15-17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse.

2. This application is in condition for allowance except for the following formal matters:

The Title:

Title should be changed to reflect the method invention. The following title is suggested: "Method for producing an electrode for a capacitor from foil."

The Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the claimed subject matter such as: coating the foil surface with photoresist, applying . . . (see steps a-d of claim 1) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement-drawing sheet should include all of the figures appearing on the immediate

prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

The claims:

Non-elected product claims 15-17 are requested to be cancelled.

\* Further, correction is required of these and any similar errors in response to this office action.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire TWO MONTHS from the mailing date of this letter.

3. The following is a statement of reasons for the indication of allowable subject matter: The prior art as a whole does not disclose the combination method limitations as presented in details in dependent claim 1 including steps of applying a holographic image to the photoresist and removing a portion of the photo resist as to expose a portion of the foil and create a pattern of photoresist therefrom (see claim 1, steps b-c).

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited prior references for method of making capacitor but lacking of applying holographic to expose the foil portion and form a pattern therefrom.
